

10g Handheld Optical Power Meter

Overview

Handheld Optical Power Meter is 10glink newly designed fiber optic tester, it aims at fiber network installation, fiber network engineering acceptance and fiber network maintenance. Combined usage with handheld optical light source, it offers a quick and accurate testing solution on both SM and MM. GAOtek's 10G PON Optical Power Meter Multimeter is a high-performance device designed for telecom and CATV maintenance as well as optical laboratory testing. This is method of illumination products high-resolution detail of end-face scratches, defects and. Check each product page for other buying options. Built-in lithium battery: stabilizes battery management. Fast charging for 3 hours, continuous use in optical power meter mode for. Viavi offers multiple handheld power meter options which are highlighted below: Measures optical power via a USB 2.0 connection to a PC/laptop/smart device - makes digital processing of optical power measurements possible and integrates directly with the VIAVI FiberChekPRO and FiberChekMOBILE.
