

16 Anpei Secondary Distribution Box

Overview

The RubberBox RUBSSP165 is a splitter built to provide five separate 16A outlets from a single supply. Manufactured in the UK and protected by our IP-rated, impact-resistant rubber enclosure, it's designed to provide a simple way to run multiple pieces of equipment simultaneously. If you're installing or upgrading a residential or small commercial electrical distribution system, a 16 way MCB box is often the most balanced choice—offering enough circuit capacity for modern loads (lighting, sockets, ACs, water heaters) without over-engineering or overspending. Over the past. Futina FTGT distribution box, with plastic panel and iron box, applicable to a variety of decoration styles, widely used in the family, high building, house, station, port, airport, commercial house, hospital, cinema, enterprises and so on occasions. High impact resistance material: PC, ABS. Adjustable din-rail: move ascend and descend. It can be outfitted with a diverse range of modular electrical components, enabling seamless terminal power distribution.
