

3-in-1 48-core fiber distribution box

Overview

48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports. The FDB-48 is suitable for indoor or outdoor FTTX applications that support up to 48. ODF distribution box is also called splicing integrated Subrack, which owns function of fiber optic cable fixed, protection termination, adjusting line, cable core and pigtail protection, cable core and pigtail protection. >>Feature It's suitable for ribbon or non-ribbon optical fiber cable. Can be. High-density 48-core fiber distribution box for versatile wall/pole mounting, built with durable ABS/PC+ABS in light grey. These series of boxes provide solid protection.
