

35kV busbar support pillars

Overview

Select SMC, DMC/BMC, epoxy resin, cylindrical, hexagonal and stand-off support options for stable busbar mounting and electrical isolation. YIKA High Voltage Epoxy Resin Insulators 10KV 12KV 24KV 35KV Busbar Support Post Insulator is the special part to fix, install and insulate on communication, electric power, lightning protection, machinery, medical, wind energy, frequency conversion equipment, new energy vehicles (integrated chassis). WILLELE designs and manufactures standard and custom bus bar insulators for low- and high-voltage panels. Using fiberglass-reinforced DMC/BMC materials and tight in-process quality control, our insulators deliver reliable electrical insulation and mechanical strength for switchgear, power. High Voltage Epoxy Resin Insulators 35KV Bus bar Support Post Insulator pillar insulators epoxy insulator, Due to our good goods and services, we've received good reputation and credibility from local and international customers. Buy insulation materials & elements from international suppliers for your business.
