

5-port optoelectronic integrated industrial switch

Overview

Industrial Ethernet 5 port unmanaged 10/100 PoE+ (30 watts) switch featuring 5 x 10/100 Mbps RJ45 ports. Powered by innovative Flex Power technology, it operates on 12-55V DC input while still delivering 48V DC output to connected PoE devices. It can support dual DC power input and DIN Rail mounting. OVERVIEW The ONV-IPS3005P is a Gigabit industrial PoE switch independently developed by ONV. Ideal for security and automation applications that need data and power transfer in a trouble-free package. Five 10/100BaseTX RJ-45 ports that include four. Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to-performance ratios. This unmanaged switch comes with Ethernet TCP/IP protocol. These industrial unmanaged PoE+ switches are designed to withstand a high degree of vibration and shock, while operating in both high and low temperatures for industrial environments within -40° - 75° C (-40° - 167° F).
