

72-core ODF terminal box

Overview

The SJ-ODF-M18 wall-mounted fiber terminal box provides secure, modular management for up to 72 fiber optic cores, ensuring organized and accessible connectivity ideal for data centers, telecommunications, and commercial installations. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. These devices and systems use light to transport data and provide better dependability and bandwidth than conventional copper connections. Find high-quality 72 core fiber optic termination boxes for reliable data transmission. Application□PC,laptop,far distance monitoring,switch,hub station.
