

AI Server Procurement Ranking

Overview

Dell, HPE, Lenovo, and Supermicro are riding record AI server demand, but winning enterprise customers requires more than just Nvidia chips. With GPUs standardized around Nvidia, vendors compete on AI Ops, liquid cooling, and deployment services as enterprises ramp up inference. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. Enterprises are investing billions of dollars in cloud. If you're buying AI servers, you're choosing between OEMs (original equipment manufacturers) and ODMs (original design manufacturers). AWS, Google, Meta, Microsoft, and Oracle buy direct from ODMs like Foxconn, Quanta, and Wistron, skipping the OEM entirely. However, many enterprises face infrastructure challenges when. Dell Technologies is the world's largest infrastructure technology provider with unmatched enterprise reach: 98 of Fortune 100 companies are Dell customers. Image:. The AI revolution is rapidly reshaping enterprise operations, yet many businesses struggle to scale their models due to the intricate demands of high-performance computing and robust AI infrastructure procurement. With the global AI server market projected to reach USD 837.
