

ASEAN Easy-Installation Cable Tray Company

Summary of Content

ASEAN Cables Pte Ltd and other regional manufacturers provide professional cable tray installation and integration services across Southeast Asia.

Key Companies and Installers

ASEAN Cables Pte Ltd (ACPL) is a leading regional company specializing in submarine cable installation, repair, and integration. They handle both straightforward surface lays and complex branching unit installations, demonstrating expertise in challenging conditions and ensuring compliance with professional standards. In addition to ACPL, Southeast Asia hosts a variety of reputable cable tray manufacturers and installers across countries like Indonesia, Malaysia, Vietnam, and the Philippines. Notable examples include:

- Indonesia: Jaya Bersama Sentosa (JBS) – heavy-duty, corrosion-resistant trays; Baja Karya (BAKA) – galvanized and stainless steel trays; Powerwell Indonesia – customizable, high-quality trays.
- Vietnam and Malaysia: Factories producing export-compliant trays adhering to IEC 61537 or NEMA VE 1 standards, suitable for high-density power and data cabling.

Technical Considerations

When sourcing or installing cable trays in ASEAN, it is critical to ensure:

- Compliance with local and international standards: Each ASEAN country has distinct electrical codes and fire safety certifications, so installers must be familiar with these requirements.
