

Affordable Trapezoidal Cable Trays in Yemen

Summary of Content

Trapezoidal cable trays in Yemen typically cost between \$5 and \$50 per meter, depending on material, size, and installation complexity.

Price Estimates by Material

- Steel trays: \$5 to \$25 per meter. Steel is durable, cost-effective, and widely used for general-purpose installations .
- Aluminum trays: \$6 to \$30 per meter. Aluminum is lightweight and corrosion-resistant, suitable for humid or industrial environments .
- FRP (Fiberglass Reinforced Plastic) trays: \$10 to \$50 per meter. FRP is ideal for aggressive environments where chemical resistance and long-term durability are required .
- Stainless steel trays: Typically at the higher end of the range, offering maximum corrosion resistance and durability for demanding applications .

Factors Affecting Cost

- Tray Size and Design: Larger widths or heavier-duty trays increase material costs. Trapezoidal designs may be slightly more expensive than standard ladder trays due to manufacturing complexity.
- Installation Complexity: Costs rise with the need for custom supports, connectors, or difficult mounting conditions.
