

Algerian anti-corrosion lighting distribution box manufacturer

Summary of Content

SARL ELECAD and HydroGuard Systems are leading Algerian companies offering anti-corrosion and explosion-proof electrical distribution solutions.

SARL ELECAD

SARL ELECAD specializes in the distribution of electrical equipment for hazardous zones, including ATEX-certified lighting and distribution boxes . Founded in 2005, the company partners with global leaders in LED ATEX lighting and provides solutions designed to protect human life and critical infrastructure. Their offerings include junction boxes, distribution boxes, and other explosion-proof electrical components. ELECAD also provides design, installation, and maintenance services, ensuring the stability and safety of complex electrical systems in industrial environments .

HydroGuard Systems

HydroGuard Systems focuses on anti-corrosion solutions and cathodic protection for industrial infrastructure . They design, manufacture, and install complete anti-corrosion systems, including certified equipment suitable for harsh environments. While primarily known for corrosion protection in oil and gas, their expertise extends to coating materials, monitoring, and maintenance of electrical and metallic structures, which can include distribution boxes in corrosive settings .
