

Andorra Cable Tray Right Angle Bend Price

Summary of Content

Right-angle cable tray bends in Andorra typically vary in price depending on material, size, and load capacity, ranging from approximately €20 to over €150 per unit.

Material and Price Considerations

The cost of a right-angle cable tray bend depends heavily on the material:

- **Mild Steel (Painted):** Affordable, suitable for indoor use with low to medium loads. Prices are generally lower, around €20–€50 per bend, but require occasional maintenance to prevent corrosion .
- **Aluminum:** Lightweight and corrosion-resistant, ideal for installations where ease of handling is important. Prices are moderate, typically €40–€80 per bend .
- **Stainless Steel (304, 316):** Highly durable and corrosion-resistant, suitable for harsh or outdoor environments, including marine or chemical settings. These are premium products, often costing €80–€150 or more per bend .
- **Hot-Dip Galvanized Steel:** Provides long-term corrosion protection for outdoor or industrial use. Prices are higher than painted steel but lower than stainless steel, generally €50–€100 per bend .

Factors Affecting Cost

- **Load Capacity:** Heavier-duty bends designed to support large cable bundles cost more.
