

Are Moxa switches industrial-grade

Overview

Moxa's Layer 2 managed switches feature industrial-grade reliability, network redundancy, and security features based on the IEC 62443 standard. We offer toughened, industry-specific products with multiple industry certifications, such as parts of the EN 50155 standard for rail applications, IEC. Moxa offers a diverse array of Industrial Ethernet Switches & Routers, including unmanaged, managed, PoE, and rackmount switches, along with models designed for the rail industry that comply with parts of the EN 50155 standard. Our industrial-grade certified solutions are interoperable with protocols such as EtherNet/IP, PROFINET, and Modbus. The Moxa EDS Range delivers industrial-grade Ethernet switching with advanced reliability, engineered to ensure secure and seamless network connectivity in harsh environments. Available in unmanaged and managed Layer 2.
