

Armored Multimode Dual-Core Optical Cable

Overview

The OM4 Multimode Duplex LC/SC/FC/ST 3.0mm Armored Fiber Optic Patch Cable is a dual-core fiber optic jumper designed for high-bandwidth, high-speed bidirectional transmission, making it ideal for data centers, LANs, and other environments requiring stable, high-density. The OM4 Multimode Duplex LC/SC/FC/ST 3. Utilizing OM3 multimode fiber, it supports 10Gbps short-distance. These multimode fiber optic patch cables have all of the features of our standard cables but are built with two layers of armored furcation tubing, making them both light tight and extremely durable. Each cable consists of an outer layer of Ø6. These cables combine the high bandwidth capabilities of multimode fiber with robust mechanical protection, making them ideal for enterprise networks, industrial applications. The Excel Enbeam OS2 Fibre Optic Cable Loose Tube 24 Core 9/125 LSZH Dca Black (200ELT24LSDBK) is designed for reliable high-performance singlemode fibre installations across both internal and external network environments. D compliant OS2 fibre technology, this loose tube cable.
