

Asian Fiber Optic Sensor Brand

Summary of Content

Leading Asian fiber optic sensor brands include FISO, Panasonic, Omron, AP Sensing, and OPTEx, serving industrial, medical, and security applications.

Key Asian Fiber Optic Sensor Brands

FISO – Based in Tokyo, Japan, FISO specializes in fiber optic sensors and signal conditioners for medical, energy, process control, and R&D applications. They provide expert consultation and support for customers across Asia, particularly in life sciences and industrial sectors (FISO) . Panasonic Electric (China) Co., Ltd. – Operating in China for over 20 years, Panasonic offers fiber optic sensors as part of its industrial automation and electronic components portfolio. They focus on automotive electronics, smart manufacturing, and IoT applications, leveraging a strong national sales and service network (WorldManufactures) . Omron Automation (China) Co., Ltd. – Omron is a multinational company with a strong presence in China, providing advanced industrial automation products, including fiber optic sensors for factory automation and process control (WorldManufactures) . AP Sensing – While headquartered in Europe, AP Sensing has significant operations in Asia, offering distributed fiber optic sensing (DFOS) solutions for critical infrastructure monitoring, including energy, offshore wind, and industrial applications. Their technology emphasizes reliability and real-time monitoring (AP Sensing) . OPTEx ASEAN / FiberSensys – OPTEx, through its FiberSensys group, manufactures fiber optic sensors for high-security perimeter intrusion detection systems (PIDS). These sensors are widely used in military, energy, transportation, and data center applications across Asia, offering advanced signal processing and environmental durability (OPTEx ASEAN) .
