

Automatic cable pulling mechanism for cable trays

Overview

This is a 3D printed retractable cable winder designed for neat and practical cable management. The spool design keeps one end of the cable fixed, while the other end is extendable and retractable. Thorne & Derrick International distribute the most extensive range of Cable Pulling & Cable Laying Equipment to enable the installation of low, medium and high voltage power cables into underground trench or duct – products also supplied for fibre optic blowing, subsea trenching, offshore umbilical. Our KBULL automated cable pulling system pulls thousands of pounds of cable with ease, relieving you from the burden of worry around safety, efficiency, and cost. Sorry, your browser doesn't support embedded videos. Ideal for industrial stringing tasks. The spool design keeps one end of the cable fixed, while the other end is extendable and retractable.
