

Black Steel Wire Optical Cable

Overview

These cables are composed of high-quality galvanised steel and have a black coating that protects them from rust and corrosion. On the one hand, this ensures a continuous black surface, which is also retained for a long time. The ropes thus combine an attractive appearance with the usual robustness. Find versatile black steel cable in various lengths and diameters. They come in different sizes, including 3mm, 4mm, 5mm and 6mm. The 3mm black steel cable is the smallest diameter in this range and is most suitable for lightweight. Categories: Stainless Steel Cable Coated per Meter. Wire Ropes black, Wire Rope Black per Meter Black wire rope in 1mm - 8mm thickness.
