

Bolivia Low-Voltage Distribution Box

Summary of Content

GGD-type AC low-voltage distribution boxes in Bolivia are designed for indoor power distribution, with rated voltages up to 400V and currents up to 3150A, suitable for industrial, mining, and utility applications.

Overview

Low-voltage distribution boxes, particularly the GGD series, are widely used in power plants, substations, factories, and mining enterprises in Bolivia. They serve as key components in AC 50-60 Hz power distribution systems, facilitating power conversion, distribution, and control for lighting, motors, and other electrical equipment .

Technical Specifications

- Rated Voltage: 380-400V AC
- Rated Current: Up to 3150A, with GGD1 (1000A), GGD2 (1600A), and GGD3 (3150A) variants
- Protection Level: IP30
- Frequency: 50-60 Hz
- Standards Compliance: GB7251.1-2023 Low-voltage Switchgear and Controlgear Assemblies, IEC/GB international standards
- Operating Environment: Indoor use, ambient temperature -5°C to $+40^{\circ}\text{C}$, altitude $\leq 2000\text{m}$, relative humidity $\leq 50\%$ at 40°C (higher at lower temperatures), installation inclination $\leq 5^{\circ}$

Article Content

Bolivia

The power sockets in Bolivia are of type A and C. The standard voltage is 115 / 230 V at a frequency of 50 Hz. Check your need for a

Bolivia power distribution cabinet

GGD AC low distribution cabinet is suitable for power plants, substations, industrial enterprises and other power users in power

Bolivia Voltage and Power Plug Guide

Complete guide to Bolivia power plug standards. Find voltage and frequency information for Bolivia, plus the plug types used in

Bolivia GGD AC Low Voltage Distribution Cabinet Supplier

As a key component in AC 50-60 Hz power distribution systems, it can accommodate rated operating currents up to 4000 amperes.

Bolivia distribution boxes tenders

Get access to latest Bolivia distribution boxes tenders and government contracts. Find business opportunities for Bolivia distribution

Bolivia GGD AC low voltage distribution cabinet

It can be used as the replacement product of low-voltage switchgear. GGD type AC low-voltage distribution cabinet conforms to IEC

Bolivia GGD Low-voltage switchgear

Product profile Low-voltage switchgear is used for power users in power plants, power substations, industrial mining enterprises etc
