

Brazilian Power and Telecommunication Optical Cable Manufacturing

Summary of Content

Brazil hosts a robust cable manufacturing industry, producing both power and telecommunication optical cables through companies like Cablena, Cabletech, Tratos, HT Cabos, and others.

Key Manufacturers

Cablana produces a wide range of optical, automotive, and power cables in Brazil, emphasizing quality and environmental responsibility . Cabletech, established in 1995, initially focused on coaxial cables and expanded into fiber optic cables in 2019. It operates four manufacturing parks in Brazil and exports globally. Cabletech specializes in high-performance fiber optic solutions for telecommunications, including FTTH and FTTA applications, and integrates sustainability practices in its industrial operations . Tratos Group, founded in 1966, manufactures electrical and fiber optic cables for energy and telecommunications. Tratos is known for innovative solutions, including superconducting cables for international projects like CERN, and emphasizes ethical business practices and environmental sustainability . HT Cabos, part of the Hengtong Group, produces optical cables for underground and overhead applications. Their product line includes single-mode fibers such as G652D, G655, and G657A2, suitable for backbone networks and high-capacity installations . Other notable companies include FiberHome, Fibracem, Sterlite Condu spar Industrial, and V.tal, which provide specialized fiber optic solutions, pre-connectorized cables, and infrastructure components for Brazil's growing telecommunications market .
