

Burkina Faso FRP cable tray specifications and models

Summary of Content

FRP cable trays in Burkina Faso are available in ladder, channel, and solid-bottom types, offering corrosion resistance, lightweight construction, and compliance with international standards.

Types of FRP Cable Trays

- Ladder-Type FRP Cable Tray
 - Constructed with two longitudinal side rails and multiple rungs for ventilation and heat dissipation.
 - Suitable for supporting multiple power and data cables in industrial and commercial installations.
 - Can be supplied with flat or peaked covers for additional protection against dust, moisture, or snow accumulation .
- Channel-Type FRP Cable Tray
 - Features a perforated bottom with integral side rails.
 - Ideal for fire-proof, moisture-proof, dust-proof, and anti-interference applications in residential, commercial, and office buildings.
 - Covers are available for enhanced cable protection .
- Solid-Bottom FRP Cable Tray
 - Provides complete enclosure for cables, offering maximum protection against mechanical damage, dust, and moisture.
