

Cable tray angle iron price

Summary of Content

Cable tray angle iron typically costs between \$5 and \$25 per piece, depending on size, material, and finish.

Overview

Cable tray angle irons are essential accessories used to support and connect cable trays in industrial, commercial, and residential installations. They are commonly made from galvanized steel, metal, or FRP, providing durability, corrosion resistance, and load-bearing capacity. These angles are often used for 90° connections between trays, supporting neat and code-compliant cable routing.

Factors Affecting Price

- **Material:** Galvanized steel is standard and moderately priced, while stainless steel or specialized coatings increase cost.
- **Size and Load Capacity:** Larger angles or those designed for heavy-duty trays (e.g., 60x300 mm) are more expensive.
- **Certifications and Standards:** CE marking, fire resistance (E90), and ISO compliance can slightly increase the price.
- **Supplier and Quantity:** Bulk orders from manufacturers like Shanghai Qionгкаi Industrial Co., Ltd. or online platforms like Alibaba may reduce per-unit cost.

Typical Price Range

- Small to medium galvanized steel angles: \$5–\$12 per piece
- Heavy-duty or larger angles: \$15–\$25 per piece
