

Cable tray costs in Malta

Summary of Content

High-quality cable trays in Malta typically range from €20 to €150 per meter, depending on material, size, and type.

Pricing Overview

The cost of a cable tray depends on several factors:

- **Material:** Steel or aluminum trays are more expensive than plastic or PVC options. Stainless steel trays offer higher durability and corrosion resistance, suitable for industrial or outdoor use.
- **Type:** Ladder trays, perforated trays, and mesh trays vary in price. Ladder trays are generally more expensive due to their structural strength. Mesh trays are versatile but may cost slightly less per meter.
- **Size and Load Capacity:** Wider trays or those designed to carry heavier cable loads cost more. Standard widths range from 100mm to 600mm, with lengths typically 2-3 meters.
- **Finish and Coating:** Powder-coated or galvanized trays resist corrosion and increase longevity, adding to the cost.

Local Supplier Context

- BigMat Malta offers a range of cable management solutions, including trunking and floor cable systems, which are suitable for residential and commercial installations .
- FBP Malta and XOL Malta provide metal and mesh cable trays for industrial and commercial applications .
