

Cable tray cover plate fastening method

Overview

In this video, we will show you how to use 3 different cover clamps (PKP-SP1, PKP-SP2 & PKP-SPM1) that enables additional mechanical fastening of the cable trays cover. Cable tray cover is used for extra demanding conditions, e. in case of exposure to wind, vertical. There are five common ways to fix cable tray cover plates: pressure plate fixing, screw fastening, buckle fixing, padlock fixing, and seven character buckle fixing. The main contents are as follows: 1. The screw-on cable trays are available in perforated and unperforated. The National Electrical Manufacturers Association (NEMA) Standards and guideline publications, of which the document herein is one, are developed through a voluntary Standards development process. This process brings together volunteers and/or seeks out the views of persons who have an interest in. When offloading tray from a flat deck trailer using an overhead crane, care should be exercised in the placement and length of the slings to prevent crushing the product (siderails).
