

Cable tray horizontal turning tee

Overview

Horizontal Tees link three 10" straight channel sections or compatible transitional fittings, enabling the creation of a sleek and efficient horizontal branch within a fiber routing system. Item code: HT Reducing Tee: $W1 > W2$. F - hot dip galvanised steel PN-EN ISO 1461:2023-02 Available finishes: E - stainless steel L - painting in standard RAL colour For joining fittings to cable tray lengths use Straight Connectors LZC. This 90-Degree Tee CleanTray, CT44TICSS item measures 4.00in with a material of SS304 finish Brushed. Lay-in Galvanized Sweep Tees offers large radius turns when mounting to vertical or horizontal. A horizontal tee branches a cable trunking run into three directions on one level, feeding circuits to several destinations from a single line. HULK Metal Fabrication makes these fittings in mild steel, aluminum and 304 or 316 stainless, with EG, HDG, ZAM One Fitting, Three Directions The. Forgot your password?
