

Cable tray laying bracket

Overview

These brackets are securely fixed to the wall or ceiling using a supporting flange, providing a stable and reliable platform for the cable tray system. They come in various designs, including L-brackets, U-brackets, and cantilever arms. Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. Our range includes: Stand-Off Brackets: Ideal for mounting cable trays or baskets with a specific clearance from. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view.
