

Cable tray stair tread price

Summary of Content

Cable tray stair treads typically range from \$10 to \$50 per meter, depending on material, type, and finish.

Pricing Overview

The cost of stair-type cable trays depends primarily on material, size, and surface finish. Common materials include:

- Galvanized steel: Durable and cost-effective, generally \$10–\$30 per meter for standard ladder or stair-type trays .
- Aluminum: Lightweight and corrosion-resistant, typically \$20–\$50 per meter .
- Stainless steel: Premium option for corrosive or high-sanitation environments, priced higher than steel or aluminum .
- FRP (Fiber Reinforced Plastic): Non-conductive and corrosion-proof, suitable for harsh environments, with prices varying based on supplier and specifications .

Factors Affecting Price

- Tray Type: Stair-type trays may cost more than standard ladder or perforated trays due to their stepped design, which improves cable retention and safety .
- Coatings and Finishes: Hot-dip galvanizing, powder coating, or pre-galvanized finishes affect durability and cost. HDG is more expensive but lasts longer outdoors .
- Length and Quantity: Standard lengths are often 2.4 meters, and bulk orders can reduce per-meter costs .
