

Cable trays for climbing slopes

Overview

Cable ladder trays have side rails with rungs to route and support cable. The rungs allow cable to enter and exit anywhere along the span, and they facilitate future changes. com - the reliable choice for safe, organized, and standards-compliant routing of power, data, and control cables. Whether you need hot-dip galvanized steel, stainless steel, or halogen-free plastic systems. Cable ladder type MP-S made of sendzimir fözinc sheet intended for environmental class max C2, such as industry, schools, offices, etc. Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. All tray sections will support an additional 200 lb concentrated load on any portion of tray (side rail, rung, etc).
