

Cable trays for the electrical industry

Summary of Content

Cable trays are open structural systems used to support and route power, control, and communication cables in commercial and industrial electrical installations, governed primarily by NEC Article 392 in the U.S. They provide easier installation, better heat dissipation, and lower labor cost than conduit systems.

What Cable Trays Are

Cable trays are rigid support systems that hold insulated electrical cables for power distribution, control, and communication. They serve as an alternative to conduit, allowing cables to be laid directly into the tray without pulling. This makes them ideal for facilities with large cable volumes or frequent system changes.

Main Types of Cable Trays

1. Ladder Cable Tray

- Two side rails with rungs spaced 4–12 in (100–300 mm).
- Best ventilation and heat dissipation.
- Ideal for heavy power cables and long industrial runs.
- Common rung spacing: 6, 9, 12, or 18 in.

2. Ventilated Trough (Perforated) Tray

- Solid bottom with slots or holes.
- Moderate ventilation and good support for smaller cables.

Industrial Electric Cable Trays: Dimensions and Types

ESAI's online guide to industrial cable trays: discover how they are made, their dimensions, and the main types used

Cable Trays Manufacturer & Supplier in India

Ajay Industrial Cable Trays – Durable & Safe Electrical Management Solutions Ajay Industrial Corporation Limited (AICL) is one of

Types of Cable Trays: Benefits and Uses

Different types of cable trays offer key benefits, optimizing cable management and enhancing efficiency in electrical

Cable Tray | EAE Electric | Medium & heavy duty cable trays

EAE Electric cable tray systems have been designed to and easy to install. Supply a complete range of cable tray including medium

Tray Cable | Tray Cable Inventory for Industrial Use

Browse OmniCable's extensive tray cable inventory, including 600V tray cables for power and control in wet, dry, and hazardous

Best practice guide to cable ladder and cable tray systems

Cable ladder and cable tray systems The following recommendations are intended to be a practical guide to ensure

Imperial cable tray system | NEMA cable tray

Imperial cable tray and ladder Eaton's B-Line series imperial cable tray system is designed to significantly reduce support costs in

Cable Trays and Accesories

Cable Trays and Accessories are designed to meet most requeriments of cable and electrical wire installations and comply to local

Cable Tray

Cable Tray Cable trays are mechanical support systems that provide a rigid structural system for electrical cables, raceways, and

Cable Trays | EAE USA

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized, electro-galvanized, or hot-dipped galvanized sheet

Cable Tray Systems | Cable Management Trays | Metsec

Our Cable Tray Systems and cable management trays offer high quality steel and galvanised steel solutions for the mechanical and

What Is A Cable Tray? 5 Types Of Cable Trays

A cable tray is a structural system used to support and manage electrical cables in various settings, such as industrial, commercial,

7 Types of Cable Trays: How to Choose the Right One

Cable tray systems are engineered support structures designed to route, support, and protect insulated electrical

Cablofil Cable Management | Legrand

Build a cable management system with Cablofil wire mesh cable tray, ladder cable tray, prefab assemblies for branch circuit wiring,

Electrical Cable Tray Suppliers

At Shilden, we provide ladder cable trays, perforated trays, wire mesh trays, solid bottom trays, and

Cable Trays

Cable trays are rigid, structural support systems used to safely route, organize, and protect

Cable Trays

Heavy Duty Cable Tray Systems Heavy duty cable trays and cable ladders are manufactured from pre
