

Canadian Non-Standard Electrical Box Manufacturers

Summary of Content

Canada has several manufacturers specializing in non-standard and customizable electrical boxes, including NuTek (ABB), Bel Products, EM Dynamics, and Schneider Electric.

NuTek (ABB Canada)

NuTek is a leading Canadian brand for nonmetallic thermoplastic electrical boxes, primarily used in wood-frame residential construction. Their products include device, round, and square boxes, as well as the F series airtight boxes for exterior walls. All NuTek boxes are designed, injection-molded, and assembled in Pointe-Claire, Quebec, using high-strength thermoplastic resin. They are known for quick installation and durability, making them a top choice for residential contractors seeking non-standard plastic boxes .

Bel Products

Bel Products specializes in custom-made enclosures, offering a wide range of options including colors, heating/ventilation, hardware, and accessories. They can manufacture enclosures based on customer plans or specifications, providing tailored solutions for both residential and industrial applications. Their expertise allows for highly customized electrical boxes to meet specific project requirements .
