

Clips used in electrical distribution boxes

Overview

Also called Spring Clips, these flexible half loop clamps provide fast, secure assembly and routing of wires, standard round cable, flat cable and tubing in a smaller bundle diameter and band width. They can also be used to mount panels, glass, displays, or signs. Clips, clamps and plugs all come in various shapes, sizes and materials. 6mm high-hardness galvanized steel, which is 20% thicker than similar products. It can withstand more than 50 pounds of tension, and will not loosen after long-term use. These Grounding Clips for Stranded Wire attach easily over the panel or hole edge to achieve positive ground wire contact with panel, plate, or frame. Wire contact is achieved by either quick connect terminals or insulation. Complete Set of 10: Elevate your electrical box installations with our Electrical Box F Clips - a comprehensive set of 10 clips in each package. This is even more. They're commonly used to connect Romex type NM-B cables to outlet boxes and light fixtures.
