

Complete List of Distribution Box Specifications and Models for Installation

Summary of Content

Distribution boxes (DB boxes) come in various types, sizes, and configurations, designed for safe and efficient power distribution in residential, commercial, and industrial installations.

Types of Distribution Boxes

- Surface Mounted Distribution Boxes – Installed directly on walls, ideal for retrofits and industrial environments .
- Flush Mounted Distribution Boxes – Embedded into walls for a clean, aesthetic appearance, commonly used in residential and commercial buildings .
- Pole Mounted Distribution Boxes – Designed for outdoor applications such as street lighting and utility installations .
- Single Phase DB Boxes – Suitable for residential properties and small commercial loads .
- Three Phase DB Boxes – Used in industrial and large commercial facilities requiring higher power capacity .
- Lighting Distribution Boxes – Dedicated to managing lighting circuits with protective devices .
- Power Distribution Boxes – Support sockets, equipment, and heavy machinery .
- Control Distribution Boxes – Integrate control components like relays, contactors, and timers for automation .
