

Congo Fiber Optic Connector Company

Summary of Content

Silicone Connect is the leading fiber optic infrastructure operator in the Republic of Congo, managing national and regional networks and providing connectivity services.

Silicone Connect Overview

Silicone Connect, a subsidiary of YAO Corp, operates as a fiber optic infrastructure provider and internet service operator in Congo-Brazzaville . Established in 2020, the company manages extensive fiber optic networks connecting Pointe-Noire, Brazzaville, and Owando, with metropolitan loops in Brazzaville and Pointe-Noire . It also maintains international connections via undersea cables and regional links, including access to SAT3, ACE, and WACS networks .

Services and Capabilities

Silicone Connect specializes in:

- Wholesale connectivity and capacity sales to telecom operators, large companies, and public institutions .
- Network interconnection and management, ensuring interoperability between operators .
- Deployment and maintenance of fiber optic infrastructure, including OPGW cables integrated into high-voltage lines for telemaintenance and network monitoring .
- Regional connectivity, linking Congo to neighboring countries such as Cameroon and the Democratic Republic of Congo .
