

DIY Curved Cable Tray

Overview

Building a custom cable tray is a great way to keep your space organized. First, gather sturdy materials like metal or plastic, along with tools like a saw and drill. Measure your area to determine the tray size, then assemble it by connecting side and end panels securely. The Good: The Estefano tray set is flexible and easy to mount, the Monoprice tray hides cables best with its enclosed design, and the Enonci raceway gives the cleanest, most compact look. Unlike traditional cable trays, a curved cable tray minimizes cable stress and prevents unnecessary wear during. Cables have a natural desire to tangle when two or more are laid down together, so the cabling under our office desk was spaghetti junction. I even placed a folding table under the desk to put some of the cables on—to keep them off the floor and make cleaning under the desk easier—but they just. The bends, tees, crosses, risers and reducers of wire mesh cable tray can be easily and quickly made live at the project by using a bolt cutter.
