

Detailed pricing for cable trays

Summary of Content

Cable tray prices in 2026 range from \$2 to \$50 per meter depending on material, type, and installation requirements.

Price by Material and Type

- **Steel Trays:** Common and durable, typically \$5–\$25 per meter. Hot-dip galvanized (HDG) steel is more expensive but highly corrosion-resistant, while pre-galvanized steel is cheaper but less durable outdoors .
- **Aluminum Trays:** Lightweight and corrosion-resistant, ideal for humid or industrial environments, priced around \$6–\$30 per meter .
- **Stainless Steel Trays:** Most durable and corrosion-resistant, suitable for heavy-duty or chemical environments, generally at the higher end of the price spectrum .
- **Plastic/FRP Trays:** Budget-friendly and corrosion-resistant, ranging from \$10–\$50 per meter, often used in aggressive environments where metals may fail .
- **Tray Types:** Ladder trays are more expensive but support heavy cables; wire mesh trays are lighter and cheaper, suitable for data centers or office cabling .

Installation and Labor Costs

Installation costs vary based on complexity, tray type, and labor rates. Open trays like ladder or perforated trays are faster to install than conduit systems, potentially saving 40–60% of total project costs compared to metal pipes . Additional costs include supports, brackets, and connectors, which can influence the overall per-meter price .
