

Development of Grenada Fiber Optic Cables

Overview

Key Insight: Grenada has made significant progress in expanding its fiber optic network, reaching 85% coverage in 2026. The import of fiber optic cables to Grenada surged in 2024, with the USA, Panama, China, Dominica, and Jamaica leading the way. This infrastructure development has greatly enhanced internet speeds and reliability, supporting both residential and business users. It is a process that involves an actual physical connection. Imports In 2023, Grenada imported \$273k in Optical fibres and cables, becoming the 182nd. Part of the World Bank funded Caribbean Regional Communications Infrastructure Programme (CARCIP) national broadband project involves the installation, maintenance, and operation of an undersea cable system connecting Grenada, St Lucia, and St Vincent and the Grenadines. Give Mom Better Connection with 350 MBPS High.
