

Distribution Box XF

Summary of Content

The JXF distribution box is a low-voltage electrical enclosure designed for three-phase systems up to 500V and 250A, providing control, protection, and monitoring functions.

Key Specifications

- Voltage and Frequency: Suitable for 50Hz systems with voltages up to 500V .
- Current Rating: Load current not exceeding 250A .
- System Compatibility: Supports three-phase three-wire, four-wire, and five-wire configurations .
- Protection Functions: Includes leakage protection, overload, short-circuit, and phase-loss protection, along with motor control capabilities .
- Design Standards: Complies with GB/T 17466.1 and GB/T 17466.24 standards; some models are IEC and CUL certified .

Structural Types

- Surface-Mounted: Suitable for indoor installation on walls .
- Recessed/Concealed: Installed within walls; customizable sizes available (e.g., JXF252014R for 250 x 200 x 140 mm), .
- Weatherproof/Outdoor: Designed for outdoor environments with IP43 protection grade .
