

Distribution box IP1

Overview

Manufactured as a single, dual, or Three phase unit capable of loads up to 125Amps and can be built as an Inline unit or as a multi socket Power Strip incorporating any type of Socket and Mains Lead termination. iPower® IP1 Also has environmental ports for the connection of. The SENKO harsh environment (IP) range of connectors are designed to be used outdoor and provide many years of reliable service. They incorporate a bayonet system which enables quick and reliable installation even when engineers are wearing gloves. One single connector providing power and optical. iPower® IP1 is a 3rd Generation energy monitor providing local and remote overall / Strip level energy monitoring with better than 1% accuracy. Details of the EULA, warranty policy and other useful information can be found on the Allen & Heath website: www.ah.co.uk IP1 requires dLive firmware V1. This model fits standard US single-gang electrical boxes (NEMA WD-6 standard) with a minimal depth of 25mm. It interfaces with the AHM, dLive or Avantis mixing system via standard TCP/IP Network connections and can therefore be networked with other controllers, computers and third party devices using standard Ethernet infrastructure.
