

Dutch data center power distribution box manufacturer

Summary of Content

Key Dutch manufacturers of data center power distribution boxes include Schleifenbauer, Vello Elektro, and AP Nederland, offering both standard and highly customizable PDUs.

Schleifenbauer

Schleifenbauer is a Netherlands-based manufacturer specializing in customized PDUs for data centers. They provide solutions that integrate hardware and software for real-time energy monitoring and control at the rack level, including modular and hot-swappable communication modules. Their products are available under the Schleifenbauer brand or as private-label OEM solutions. All development and production occur in-house in the Netherlands, ensuring high quality, sustainability, and rapid delivery, with lead times of up to four weeks for custom orders. They have produced over 100,000 different types of PDUs, ranging from simple power strips to advanced intelligent units, and offer complementary energy management software called EnerTree .
