

Electric Room Distribution Box Manufacturer

Summary of Content

Leading manufacturers of electric room distribution boxes include Wieland, E•Box, and VIOX Electric, offering customizable, high-quality solutions for residential, commercial, and industrial applications.

Key Manufacturers and Offerings

Wieland Electric specializes in smart, decentralized distribution boxes suitable for flexible building installations. Their products support pluggable installation, room automation, and building energy efficiency. Wieland boxes comply with IEC 61439 and IEC 61535 standards, are CE certified, and are designed for harsh environments, including moisture-prone areas. They offer solutions for power, signal, and data distribution, with modular designs that allow easy installation and future expansion . E•Box provides UL-rated electrical enclosures with a focus on rapid delivery and custom solutions. They manufacture enclosures in the United States, offering a wide range of sizes, colors, and applications. E•Box is known for low lead times, extensive finished goods inventory, and the ability to handle both small and large-scale projects. Their products are suitable for OEM and specialized applications, emphasizing speed, flexibility, and reliability . VIOX Electric offers distribution boxes made from high-quality ABS plastic and stainless steel (grades 201, 304, 316). Their enclosures are designed for durability, corrosion resistance, and high IP ratings, providing protection against dust, water, and environmental hazards. VIOX boxes feature user-friendly designs with modular components, quick-access panels, and flame-retardant materials for enhanced safety. They cater to residential, commercial, and industrial needs, including OEM and custom solutions .
