

European 8-port industrial switch

Overview

The IES-8P is a rugged, unmanaged 8-port Ethernet switch designed for industrial environments. Its slim design, easy DIN rail mounting, and support for auto-negotiation and Auto-MDI-X make it ideal for fast, plug-and-play installation. It provides immediate network connectivity. Industrial Ethernet Switch, managed, 6 x standard 10/100 BASE TX, RJ45, 2 x 100BASE-FX singlemode SC ports. Narrow Ethernet switch, eight RJ45 ports with 10/100 Mbps on all ports, automatic data transmission speed detection, autocrossing function, and QoS Download additional CAD file types. An article-related China RoHS declaration table can be found in the download area for the respective article under. The DIS-100G Series switches are housed in a highly resistant IP30-rated metal casing to protect the switches from harsh environmental conditions. With reliable performance in temperatures from -40 to +70 °C.
