

Fiber Optic Cable Construction Progress and Prices

Overview

The 2025 Fiber Deployment Cost Annual Report, produced by the Fiber Broadband Association and Cartesian, provides the industry's most comprehensive benchmark of fiber build costs across the U. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. This article summarizes the latest fiber optic price data as of June, 2026, along with the recent timeline of price changes and the factors behind the surge. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. This guide presents ranges in USD and practical price estimates to help.
