

Fiber Optic Cable Distribution Box Product Introduction and Price

Summary of Content

Fiber optic distribution boxes are available in indoor and outdoor models with capacities from 1 to 96 ports, offering wall, pole, or rack mounting, with prices typically ranging from \$20 to \$300 depending on configuration and features.

Overview of Models

Indoor and Outdoor Options:

- Indoor boxes are usually made of powder-coated steel or ABS plastic, with lockable doors and integrated splice trays for secure fiber management .
- Outdoor boxes feature IP65-rated, UV-resistant enclosures suitable for wall, pole, strand, or pedestal mounting, with weatherproof seals and cable gland entries . Port Capacities:

- Common port options include 4, 8, 16, 24, 36, 48, and up to 96 ports, supporting SC or LC adapters and PLC splitters .

- Smaller boxes (1-8 ports) are ideal for single-building or small FTTH deployments, while larger boxes (24-96 ports) are used for multi-dwelling units or network aggregation points . Mounting Types:

- Wall-mount: Most common for indoor and outdoor installations.
- Pole-mount: Suitable for aerial or street-level deployment.
- Rack-mount: Used in data centers or central offices for high-density fiber management . Materials and Durability:
