

Fiber optic cable loose tube 6

Overview

Outdoor OFC MLT: ARAMID + PE + CST + PE with 6 Tubes of Ø1. Outdoor dry core optical fiber Multi Loose Tube cable with aramid yarns as strength member, polyethylene inner jacket, Corrugated Steel Tape (Full Rodent Protected) armor and polyethylene outer jacket. Product feature: This. Corning ALTOS® all-dielectric gel-free cables are designed for outdoor and limited indoor use for backbones in lashed aerial and duct installations. The loose tube gel-free design is fully waterblocked using craft-friendly, water-swappable materials, which means cable access is simple and no clean. Non-Armored Loose Tube Multimode Outdoor Cable designed with 6 fibers, 1w tubes, 6 fibers (4 fillers), 50/125µm multimode GIGA-Link™ 600. Provides flexibility and versatility required for demanding installations. Historically, tight-buffered cable was used best for indoor applications while loose-tube cable was considered best for outdoor applications. But is it still the case after so many years?

Tight-buffered.
