

Fiber optic cold splice quick

Overview

The Quick Connect Fiber Optical Cold Fast Splicer Connector is designed for rapid, reliable fiber termination without the need for epoxy, polishing, or specialized splicing equipment. Utilizing a factory pre-polished ceramic ferrule with precision alignment, this connector enables fast on-site. Fiber optic quick connector/cold connector The fiber optic quick connector/cold connector is a very innovative field-terminated connector, which contains factory-installed optical fiber, pre-polished ceramic ferrule and a mechanical splicing mechanism. It delivers consistent and reliable optical connectivity with excellent signal. Optical fiber fast connectors, also known as cold connectors, are becoming increasingly popular due to their ease of use and quick installation.
