

Fiber optic patch cord TAA standard

Overview

Our TAA cable lineup includes Category 5e, Category 6, and Category 6A solutions in a variety of configurations—shielded or unshielded, stranded or solid, booted or non-booted, and available in standard, slim, and ultra slim profiles. Shaxon's TAA Compliant network cables are proudly manufactured in the USA and designed to meet the rigorous requirements of the Trade Agreements Act (TAA), making them ideal for government, military, education, and other federally funded environments. These cables combine performance, reliability. Fiber optic jumper cables—commonly called patch cords—are among the most frequently purchased consumables in enterprise and data center procurement cycles. Each qualified product line meets federal domestic-content sourcing standards and includes. This is a 5m LC to LC Aqua OM4 Duplex OFNR (Riser-Rated) TAA Fiber Patch Cable. Ideal for data centers and large-scale network. Taiwan-made TAA-compliant fiber optic products: test equipment, patch cables, and MTP/MPO cables.
