

Fiber optic terminal box with 12 ports arranged in a sequential dual row

Overview

HTB8013 supports 12 SC ports and fusion splice points, offering organized and compact indoor fiber termination for FTTH subscriber connections. Designed without adapter slots, this enclosure provides a high-reliability, low-loss solution for environments where permanent fusion splicing is preferred. The 12 Port Fiber Distribution Box can connect up to 2 optical cables, providing space for distributors and 12 fuses. How can I pay for my order?

We accept T/T. It consists of 12x outlet PORTS, some Splice trays, a tissue system with optical fiber splicing tray and 12pcs bayonet type enhanced pre-connectorized waterproof Mini SCAPC adapters, which can be accessed and connected from the outside of the box. It is intended to shorten deployment time while maintaining protected optical connection points in outdoor and.
