

Fiber optic terminal box with one inlet and two outlets

Overview

The 2 port surface mount fiber terminal box is a compact indoor fiber wall outlet designed to protect the splicing of indoor or drop cables and pigtails. It serves as a termination point for FTTH home networks, allowing operators to connect the end-user's fiber jumper through its 2. Suitable for 2 pcs SC simplex adapters or 2 pcs LC duplex adapters; 1 inlet port (for cables with max diameter 12mm), 2 outlet ports Fiber Access Terminal (FAT) is a terminal box installed near the customer premises or multi dwelling buildings for splitting and distribution drop cable to customer. The L-com LCFTB-E-LCA FTTH Terminal Box presents a cutting-edge solution for indoor fiber optic termination and distribution of optical cables. Crafted with sturdy ABS plastic, this wall-mountable box guarantees durability and reliability for your network connections.
