

Finished Cable Tray Accessories

Summary of Content

A finished set of cable tray accessories includes all fittings, supports, hangers, splices, and protective components required for a complete cable management system.

Overview of Cable Tray Accessories

Cable tray accessories are essential components used to support, connect, and organize cables in commercial and industrial installations. They ensure safe routing, prevent entanglement, and allow for flexible cable management while complying with safety standards . A finished set typically includes:

- Fittings and Connectors: Elbows, tees, crosses, bends, risers, and reducers to change direction, height, or width of the tray system .
- Supports and Hangers: Brackets, suspension rods, cross arms, and wall or ceiling hangers to secure trays at various points and maintain stability .
- Splicing and Joining Components: Butt-splice kits, junction splice kits, and straight connectors to join tray sections seamlessly .
- Protective Accessories: End caps, covers, and drop-outs to protect cables from dust, water, or mechanical damage .
- Fasteners and Fixings: Bolts, nuts, locks, expansion screws, and washers for secure assembly .
- Cable Management Add-ons: Cable cleats, system dividers, and wire baskets to organize and separate cables within the tray .
