

Fireproof Mini Electrical Distribution Box

Overview

Available in aluminium or stainless steel, these enclosures are fully flame retardant and offer incredible protection for your equipment in the most hazardous of conditions. Available as Ex certified (Sira 08 ATEX 3212 or IECEx SIR 13. 0038X and fitted with an M6 earth stud). A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. The ABB offers an innovative enclosure system for fire prevention, which is constructed of fireproof materials, features optimum technology and is available in a variety of economical designs. Finished in grey (RAL). Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. It is widely used in homes, workshops, hotels, shopping malls, power stations and other places. This 5-way circuit breaker protection box.
