

Four-port optical module gigabit switch

Overview

What's more, 4 gigabit SFP fiber optic uplink ports provide long distance, high speed and stable data transmission to a remote core network. Features Support enhanced management through WEB, CLI, TELNET, SSH, SNMP. Includes a systemOptique-certified SFP module and 1m fiber cable. Connect. Microchip's industrial Ethernet switch device delivers the industry's lowest power Gigabit Ethernet (GbE) switching solution. The VSC7511 is a fully-integrated 4-port Gb Ethernet switch with four copper PHYs or four SGMIIs in a single package. It is designed to meet industrial fields and. Our ESW-2206 optical fiber switch has 2 Fiber Optic SFP Module ports and 4 X 10/100/1000 Base-TX copper RJ-45. Works Best with Fibertronics Cat6 6 or Cat 5e ethernet patch cables. It can support dual DC redundant power input (Phoenix terminal connection) and DIN rail mounting. The ONV-IPS33042PF is a Gigabit industrial. PoE ports support watchdog servo function, If a port communication fault occurs, the corresponding port restarts automatically to recover network communication by itself, reducing manual intervention and maintenance.
