

French Export Price of 220V Communication Power Supply Cabinets CIF

Summary of Content

The CIF export price of 220V communication power supply cabinets from France typically ranges between USD 500 and USD 1,500 per unit, depending on specifications, quantity, and shipping destination.

Overview of Pricing

French suppliers of electrical equipment, such as CB Trading and CIF, provide high-quality power supply cabinets for international markets, including Europe, Africa, Asia, and North America . Prices vary based on:

- Cabinet type and voltage rating (220V communication cabinets are standard for industrial and telecom applications)
- Material and build quality (metal enclosures, IP rating, corrosion resistance)
- Quantity ordered (bulk orders often reduce per-unit cost)
- Shipping and insurance costs (CIF includes freight and insurance to the destination port) Based on trade data for similar voltage cabinets exported to France from Germany, unit prices for industrial power supply cabinets generally fall in the USD 500–1,500 range . This provides a reasonable benchmark for French exports, though exact CIF pricing will depend on the port of destination and shipping terms.
